A Man With A Dream

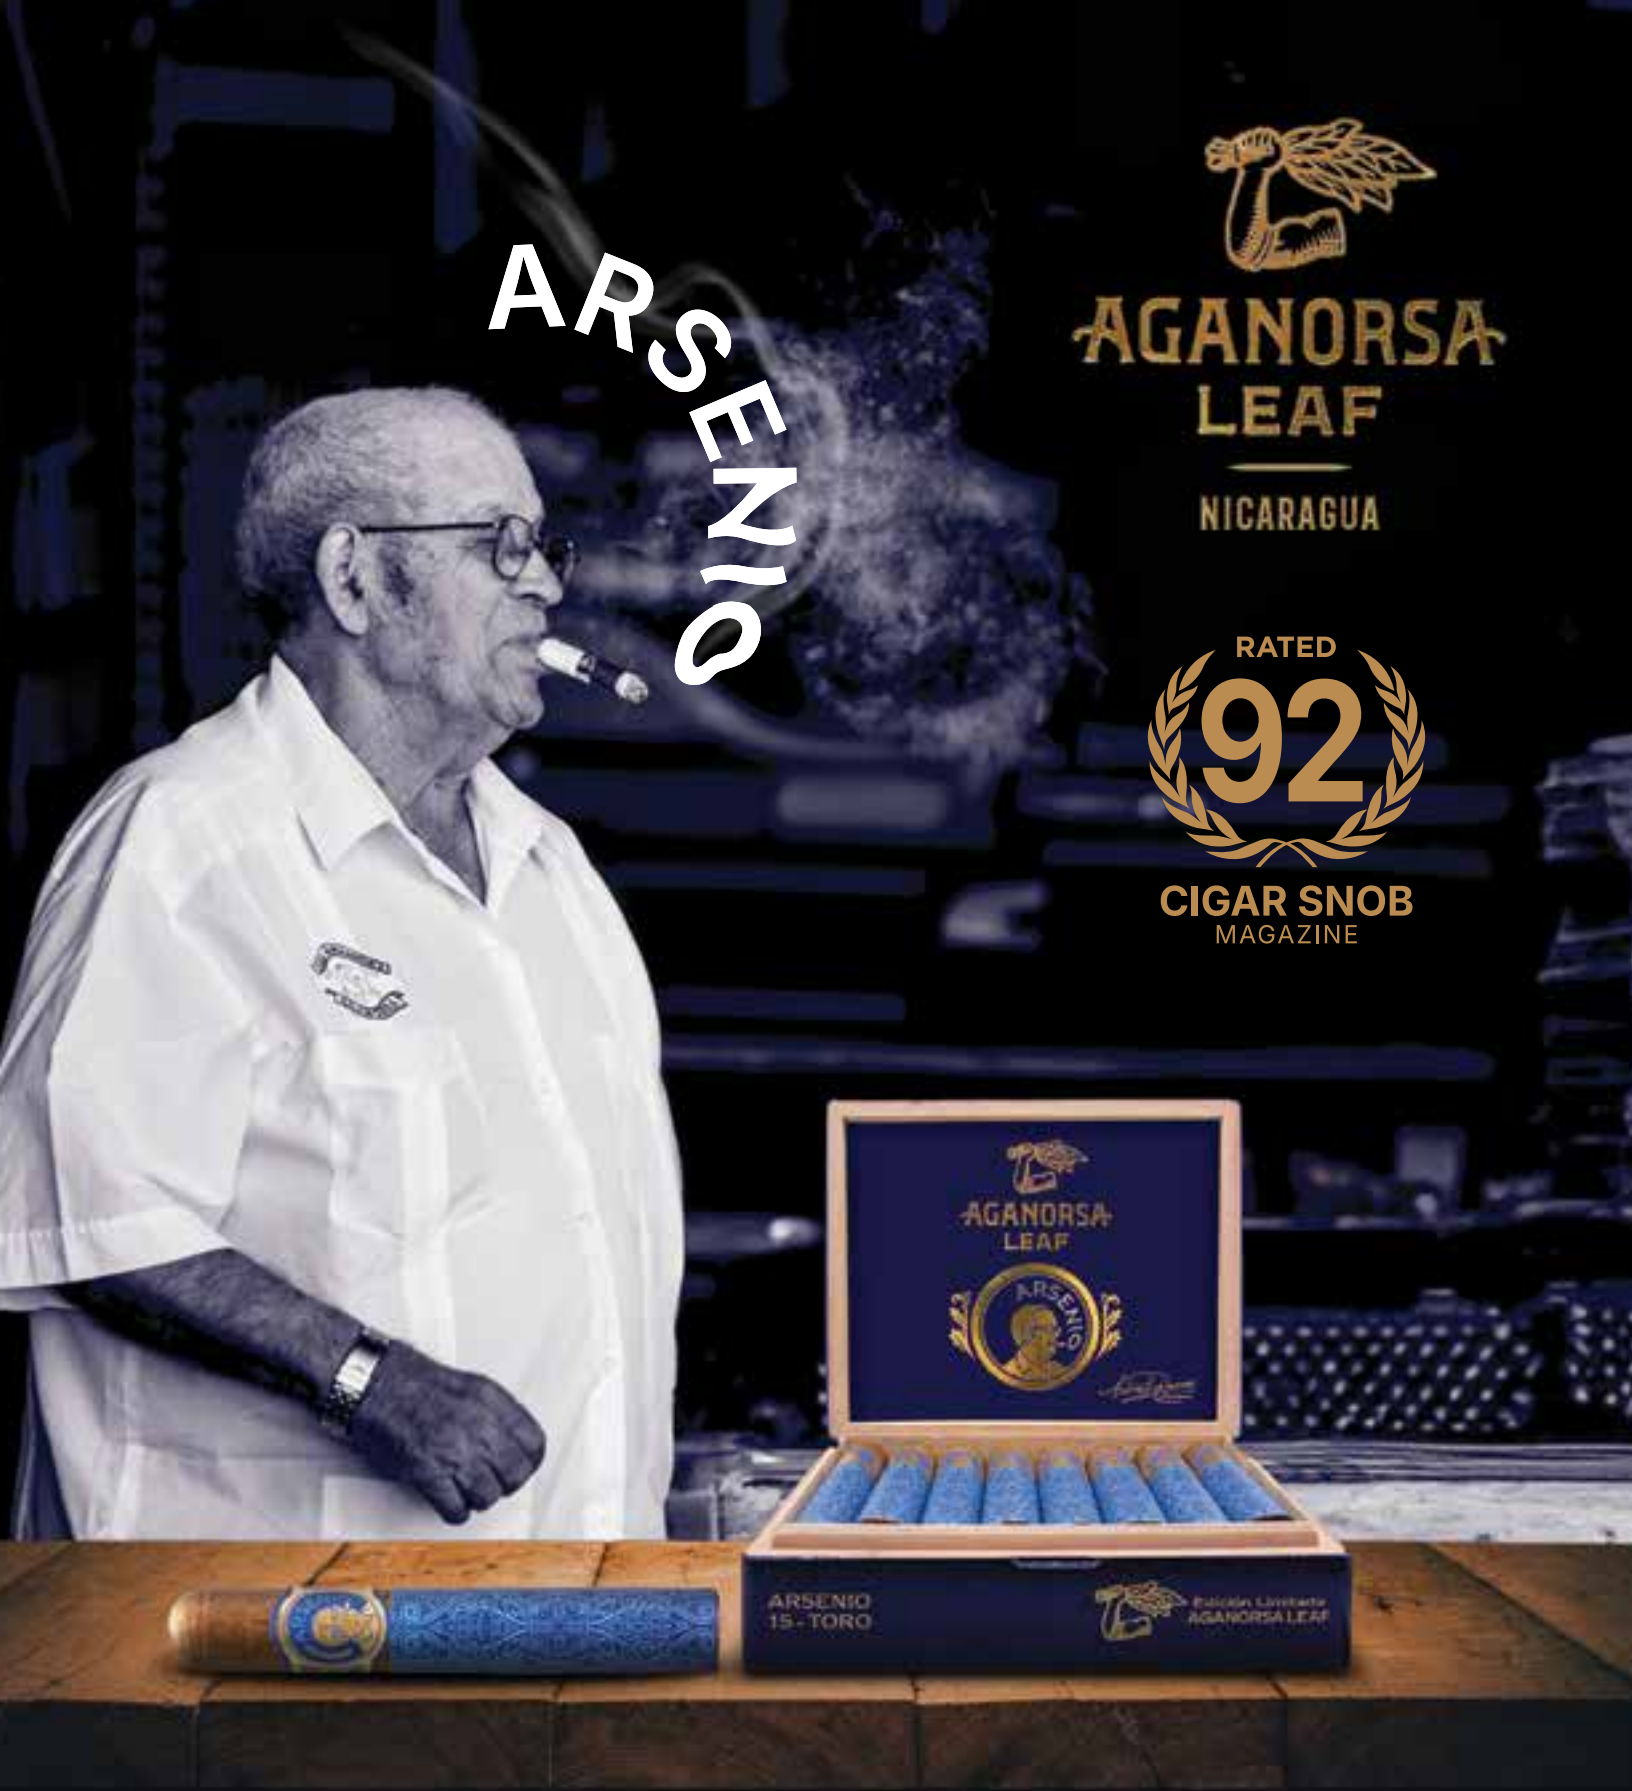

In 1998, Eduardo Fernandez went to Nicaragua with a dream: to grow the finest tobacco in the world that captured the very essence of the Cuban cigars of old. To do this, he traveled to Cuba and assembled a world class team of Cuban agronomists who worked at the highest levels of Cubatobaco, in many cases for over half a century, and brought them to Nicaragua.

These men oversaw the production of tobacco during the heyday of Cuban cigars, knew exactly the taste they were famous for, and recognized they could recreate the style and aroma of Cuban leaf using traditional Cuban methods in conjunction with the resources available to them in Nicaragua. The tobacco they cultivated is named Aganorsa Leaf.

More than 20 years and countless awards later, Aganorsa Leaf is renowned throughout the world for its signature flavor that possesses all the great attributes of Nicaraguan terroir along with classic Cuban aroma and flavor. As a vertically integrated company, Aganorsa Leaf oversees the entire production process—from seed to ash—ensuring every cigar consistently produces maximum pleasure. Every cigar rolled in our factories in Nicaragua and Miami is composed of our highest grade Aganorsa Leaf, and is crafted under the watchful eye of Eduardo, his son Max, and their team of Cuban supervisors. When you smoke one of our world class blends, you will experience the difference between ordinary tobacco and Aganorsa Leaf.

“First you crawl, then you walk and then you run. It’s a process you can’t skip or else it comes back to haunt you.”

– Eduardo Fernandez

AGANORSA LEAF RARE LEAF

Our Cuban-seed Criollo 98 grown in Esteli is dominant in this blend. Bursting with spice, earth and a touch of sweetness, Rare Leaf utilizes tobaccos which are selected from special lots on our best farms. A cigar with such scarce leaf is usually limited, but by granting access exclusively to our Aganorsa Select Retail Partners we are able to supply Rare Leaf all year long.
